

EAGO^{USA}

2024 CATALOG

ABOUT THE BRAND /

EAGO USA has been the official US representatives of EAGO Sanitary Ware since 2009 and works directly with Alfi Trade Inc., which is the exclusive distribution center and importer of all EAGO products available to the US market. Our core value aims to provide our customers with the highest quality products with an emphasize on durability and sleek modern appeal. We believe that luxury shouldn't mean breaking the bank, and work closely with our customers to offer the best customer service possible.

EAGO Sanitary Ware, founded in 1996, is a leading manufacturer of building materials in China. With more than 400 concept stores and distribution centers around the world, EAGO has become a worldwide success. The EAGO factory is equipped with state-of-the-art facilities for acrylic tubs and ceramics and covers an area of over 3 million square foot, making EAGO one of the largest sanitary ware manufacturers in China.

With a decade of experience, purchasing EAGO products through EAGO USA gives you peace of mind, knowing that you can contact us anytime with all of your warranty or spare part needs. Specializing in a full range of bathroom products including toilets, air tubs, whirlpool tubs, ceramic sinks, and more. EAGO USA is your one stop shop for all your bathroom decorative plumbing needs.

WARRANTY /

Products are warranted to the original customer to be free from defects in material and workmanship.

Toilets & Bidets come with a 5 year limited warranty on all porcelain parts against fading/staining of the glaze & 1 Year on flushing mechanism & toilet seat. All cracks and chips due to misuse, freight damage, and improper installation; whether performed by a plumber, contractor, service provider, or unqualified person, will void the warranty.

Tubs offer a 1 year limited warranty on all parts.

Porcelain Sinks come with a 5 year limited warranty on all porcelain parts against fading/staining of the glaze. All cracks and chips due to misuse, freight damage, and improper installation; whether performed by a plumber, contractor, service provider, or unqualified person, will void the warranty.

Warranty begins from purchase date on invoice. An invoice must be provided in order to file a warranty claim. If a free replacement is granted under warranty, the warranty time frame continues from the original purchase date, and not from the date of free replacement.

The majority of Replacement Parts for all items are kept in stock in the Los Angeles. There are only rare instances where additional time would be required to get a special part from the factory. In both cases our warranty team in Los Angeles will assist you through out the entire process to insure you get the parts you need.

EAGO products are warranted for normal use only and exclude defect or damage caused by or resulting from misuse, abuse, neglect, scratches, dents, abrasives, chemicals, improper installation/care/maintenance (whether performed by a plumber, contractor, service provider, or unqualified person), or alteration. This warranty does not apply to the replacement of components where damage is caused by normal wear and tear, dirt, lime scale, aggressive air or water conditions, or harsh or abrasive cleaners or materials. If a product is defective, the limit of damage is the cost of the defective material. This warranty is non-transferable. EAGO is not liable for consequential damage, labor, loss, or expense of any nature.

Slow / Silent Closing Toilet Seat & Lid
The soft drop seat has an innovative hinge system that will gently guide the toilet seat down without a sound.

We are proud to present our most advanced flushing system - Out & Out powerful flushing system. This features a trap way with a diameter of more than 2", complemented by our super powerful jet siphonic flushing function.

Only one flush!

25 pcs of sponge strips (19x29mm)

90 polypropylene balls out of 100!

*Above-mentioned testing tools are standard tools for CSA testing

Siphonic Flush System. New tower based mechanism. There is no chain to snap, and no flapper to partially close, leaving your toilet running.

- 01 Powerful and efficient 3" flushing valve. Reduces the number of problems typically associated with older ball-chain-flapper systems.
- 02 Wide water surface. A large surface area keeps odors down and allows for easy cleaning.
- 03 Balanced water distribution. Designed to maintain the optimal balance between an increased diameter and proper exit velocity.
- 04 Large 2" fully glazed trap. Fully glazing the trap way ensures that waste flows smoothly to the exit with a single flush, each time.
- 05 Big jet hole ensures proper flushing every time.

Living the Green Life. These environmentally friendly toilets will save a family of four an average of 10,000 gallons of water per year!

To prevent particles from adhering to the ceramic surface of our porcelain ware, easy-clean glazing is applied. Making use of nanometer technology, a super-smooth surface is created. Compared to conventional glazing, there is an ionized barrier to prevent particles from adhering to ceramic. In fact a catalyzed ion barrier repels particles away so the surface has a super-clean feature and is effortless to clean.

Conventional Glazing

Under a microscope, you can see that the surface is actually not smooth on conventionally glazed porcelain ware, allowing dirt to adhere and remain there. This cannot happen with EAGO glazing

Conventional glazing has a rough surface so it's easy for dirt to be attached.

After use for a long time, bacteria will grow on the surface and it doesn't smell good!

EAGO Easy-Clen Glazing

In addition to the conventional surface, one layer of easy-cleaning glaze is applied. Under a microscope, you can see that the surface is smooth. It keeps dirty away and is always super clean.

Easy-cleaning glazing has a smooth surface so it's difficult for dirt to stay there.

No bacteria will accumulate on EAGO easy-clean glazing surfaces, so it doesn't give unpleasant smells even after a prolonged period of use!

Fully Glazed inside & out. The trap ways of EAGO toilets are perfectly glazed just as they are on the outer surface. Keeping your toilet flushing like new for years.

One Piece Toilet. Enjoy a sleek solid European design. Not only does it look so much better than your old toilet, it also performs significantly better.

All toilet models feature:
One Piece · White Color · Elongated toilet seat · 12" Rough in

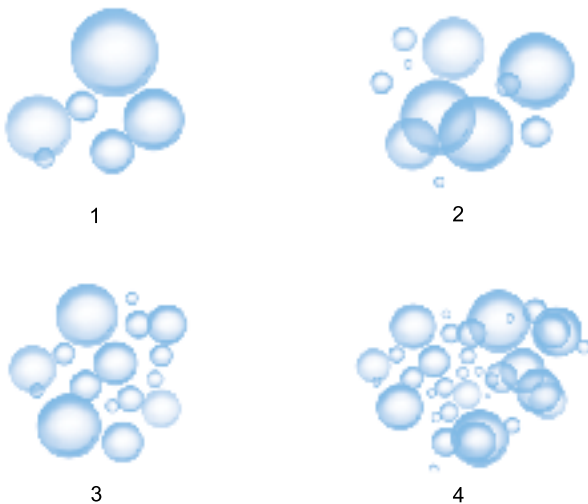

All toilet models include:
Slow / Silent closing toilet seat · Wax ring and all installation requirements.

6 type of massage modes (New function for Freewave whirlpool Bathtub)

4 different types of massage intensity options

5. Gradual automatic change of massage intensity options

6. Impulse massage options

AM154ETL-R5
AM154ETL-L5 188 LBS

Size: 59" x 29 1/2" x 25 1/4"

- Features:**
- 2 HP water pump
 - 4 faucet holes
 - Chromatherapy LED lighting system
 - MaxLoad™ high gloss acrylic
 - Keypad Control Panel
 - Includes Inline Heater
 - back flow preventer on the shower heads
 - 4 different levels of jet pressure
 - Auto protection function for pump

Electric Requirments

- 110-120 Volts, 30 Amps, 3000 Watts, 60 Hertz, 1.5 Horsepower

AM154ETL-L6

AM154ETL-R6

AM154ETL-L6 203 LBS

Size: 70 1/2" x 31 1/2" x 25 1/8"

121 lbs

AM198ETL-L

AM196ETL

201 lbs

Size: 70 7/8"x35 3/8"x25 5/8"

Configuration:

- 2 HP water pump
- 20 jets
- Hand shower head
- Leakproof shower holder
- Deodorized trap
- TS touch control panel contains FM radio,chromatic light,impulse type massage adjustment function
- Electrical Requirements : 30Amps, 110-120V Volts, 60 Hz, 2HP,3050 Watts

Features:

- Massage bathtub for 2 persons
- Seamless connection technology
- Water Capacity: 95 gallon
- Inline Heater

AM198ETL-L AM198ETL-R

161 lbs

Size: 59"x39 3/8"x23 5/8"

Configuration:

- 1.2 HP water pump
- 6 jets
- 8 bubbles light jet
- Five-level hand shower head
- Leakproof shower holder
- Deodorized trap
- Liquid crystal touch control panel
- FM radio
- MP3(USB)
- Solid brass fixtures
- Water Capacity: 69 gallon
- Inline Heater
- Electrical Requirements : 15 Amps, 110-120V Volts, 60 Hz, 1.2 HP,1450 Watts

Features:

Tub is stronger and firmer. It will not produce a squeaking sound through gravity or from friction between the tub and skirt panel. Controllable 180 flat swing function can open and close water outlet separately. Jet with chromatic light is optional. There is an on/off swing massage button on computer panel

AM156ETL 214 LBS

Size: 59" x 59" x 24"

Features:

- Tempered glass front panel: 1/4" thick (6mm)
- Keypad Control Panel
- Includes Inline Heater
- 4 different levels of jet pressure
- 60 minutes auto shutdown function
- MaxLoad™ high gloss acrylic
- Chromatherapy LED lighting system
- Back flow preventer on the shower heads
- Tub fills itself through the jets!

Electric Requirments

- 110-120 Volts, 30 Amps, 3000 Watts, 60 Hertz, 1.5 Horsepower.

AM197ETL 203 lbs

Size: 59"x59"x25 5/8"

Configuration:

- 1.5 HP water pump
- 20 jets
- Chromatic bubbles light
- Five-level hand shower head
- Leakproof shower holder
- Deodorized trap
- TS touch control panel contains FM radio,chromatic light, impulse type massage adjustment function

- Solid brass fixtures
- Water Capacity: 105 gallon
- Inline Heater
- Electrical Requirements : 17 Amps, 110-120V Volts, 60 Hz, 1.5 HP,1550 Watts

Features:

Integrated technology for one-sheet material. Difficult to leave dirt, easy to clean.

Tub is stronger and firmer. It will not produce a squeaking sound through gravity or from friction between the tub and skirt panel."

AM124ETL-L

AM124ETL-L AM124ETL-R

Size: 70 7/8" x 47 1/4" x 27 5/8"

Configuration:

- 2 HP pump
- 17 jets
- Sydney whirlpool system, promotes good health and increases blood circulation
- Sensational bottom hydro-massage system
- Water capacity: 114 gallons
- Thermostatic faucet with a stopper at 100 Fahrenheit
- FM radio
- Chromatherapy
- Unique double drain system (patent design)
- The pump is equipped with auto protection function. This means that if there is not enough water in the whirlpool bathtub, the pump cannot be started
- 60 minutes auto shutdown function
- Removable front panel
- Electrical Requirements : 30 Amps, 110-120V Volts, 60 Hz, 2 HP, 3050 Watts

225 lbs
